Dedicated Full-Stack Software Engineer with a passion for web development and coding. Strong track record of critical thinking and problem solving in stressful environments. Confident in ability to meet strict deadlines. Have gained excellent communication and leadership skills from past experience. Committed to continuous improvement and team success.

PROJECTS

- **Neighborhood Swatch**   Dec 2020
  - Javascript, HTML, CSS, Bootstrap, jQuery, Firebase, RESTful APIs: An app created for people who are looking to relocate and purchase a home in the Atlanta area. It recommends three neighborhoods based on income and populates age demographics, housing vacancy, and income.
  - This was a three person project where I handled two different api fetches, logic for the homepage, and threading the data from the apis into line, doughnut, and bar charts from Chart.js.
  - https://github.com/anjatmyers/teamRedProject | https://neighborhood-swatch.web.app/home.html
- **Blackjack Game**   Dec 2020
  - Javascript, HTML, CSS: A version of the classic casino game. Single player against a dealer featuring the options to hit, stand, and play again. Tracks player and dealer wins and cards left.
  - https://github.com/Ardeeter/Blackjack-exercise | https://ard-blackjack.netlify.app/
- **RPG Game**   Nov 2020
  - Python: Role-playing game coded with object-oriented programming. Single player game with seven characters and five special powers available for purchase in the game store.
  - https://github.com/Ardeeter/hero-rpg

TECHNICAL SKILLS

- Javascript, Python, GIT, HTML, CSS, Bootstrap, jQuery, DOM Manipulation, RESTful APIs, JSON, HTTP, Node.js, Express.js, PostgreSQL, React.js, Redux

PROFESSIONAL EXPERIENCE

- **Dr. David Laub, Urologist | Medical Administrative Assistant | Santa Barbara, CA**   Oct 2018 - Oct 2019
  - Ran the front office of a high volume doctor's office. Assisted patients with scheduling appointments, inputted patient paperwork and forms, handled a four line phone system, performed data entry for faxed documents, and handled payments and insurance information.
  - While at this office, I oversaw the switch from our old patient charting software to a new one and led staff training.
- **Lama Dog Tap Room + Bottle Shop | Front of House Manager | Santa Barbara, CA**   May 2016 - Oct 2018
  - Managed a team of 15 employees at a fast-paced tap room. Provided staff training, managed scheduling, handled HR processing, and dealt with customer inquiries and issues.
- **Benchmark Eatery | Floor Manager | Santa Barbara, CA**   July 2014 - Oct 2017
  - Managed on-the-floor staff and oversaw that the front and back of the house ran smoothly throughout my shifts. Led staff through pre and post shift meetings. Handled money, close-out procedures, and reports at the end of each shift. Monitored dining room and bar to ensure guests had an optimal experience.
  - During my time, I curated and launched a new bar menu and spearfronted staff training.

EDUCATION

- **DigitalCrafts | Certificate in Software Engineering**   Nov 2020 - March 2021
  - Full-stack immersive software engineering program covering JavaScript, Python, including an emphasis on cutting-edge frameworks like React/Redux and server-side technologies including Node.js, Express, and PostgreSQL.
